

Whilst putting the signs out I thought that I may have to cancel the event due to the water laying on the Leamington Island, but thankfully by the time of the start the rain had stopped and the water had had time to subside. 17 Riders signed on and were keen to ride the event. Times were a lot better than in previous events on this course whether it was due to riders being fitter or the road having had some work done on it, giving the riders a more comfortable ride we will have to wait and see. Dave Watson won with a 21m32s followed by Richard Howes 22m43s and Paul Moss with 23m.26s. Next week will be the last of the series for the circuit time trials 1 Lap on the Stoneleigh Circuit, followed the next week by the last evening TT on the same course. Then leaving just the 2 Hill Climbs to bring to an end the Clubs T.T.s for the 2008 season.
